

## Warm water for all purposes

The Sigmar boilers "Compact" and "Compact Inox" are two new innovative series of water heaters Inox 316, from 20 to 80 litres, cased in a new sturdy compact plastic shell with integrated mounting brackets. These water heaters have been designed not only to offer a compact, robust and attractive looking product with better technical characteristics such as thermal insulation and resistance to marine environment, but also to render their application on board safer, easier and quicker and not least to have the best cost/quality in the market.

### The advantages of Sigmar boiler

- Sturdy plastic casing with integrated brackets
- Stainless steel AISI 316 inside tank and heat exchanger
- regulating thermostat with double safety
- electric cable with schuko plug
- safety and non-return valve
- universal mount (vertical and horizontal)
- thermostatic valve available as accessory

**Sigmar Boiler Compact**

*This product range is available in four sizes and provides capacity from 20 to 40 litres*

**Sigmar Boiler Inox**

*This product range is available in four sizes and provides capacity from 30 to 80 litres*

## Serie Compact

Volume		Size						Heating Element	Weight	
Liter	Gal.	Width*		Length*		Height*		220 or 110 Volt Watt	Kg	Lb Gb.
		mm	inch	mm	inch	mm	inch			
20	5 1/3	366	14 1/3	430	17	358	14 1/8	800	7	14
22	6	287	11 1/3	558	22	297	11 2/3	800	8	16
30	8	366	14 1/3	540	21 1/3	358	14 1/8	800	9	18
40	10 1/2	366	14 1/3	660	26	358	14 1/8	800	11	22

## Serie Compact INOX

Volume		Size						Heating Element	Weight	
Liter	Gal.	Width*		Length*		Height*		220 or 110 Volt Watt	Kg	Lb Gb.
		mm	Zoll	mm	Zoll	mm	Zoll			
30	8	366	14 1/2	540	21 1/3	358	14 1/8	800	9,5	19
40	10 1/2	366	14 1/2	660	26	358	14 1/8	800	11,5	23
